

**Project Design  
Phase-I Solution  
Architecture**

Date	
Team ID	PNT2022TMID03145
Project Name	Project – Smart farmer-IoT enabled smart farming application.
Maximum Marks	4 Marks

**Solution Architecture:**

Solution architecture is a complex process – with many sub-processes – that bridges the gap between business problems and technology solutions. Its goals are to:

- Find the best tech solution to solve existing business problems.
- Describe the structure, characteristics, behavior, and other aspects of the software to project stakeholders.
- Define features, development phases, and solution requirements.
- Provide specifications according to which the solution is defined, managed, and delivered.

**Example - Solution Architecture Diagram:**

SOFTWARE FOR SMART AGRICULTURE
